Data Analyst with practical hands-on experience in data analysis, Business Intelligence, and Machine Learning. Particularly passionate about exploring underlying data structures, uncovering patterns and insights, and translating them into actionable information to drive data-informed decision-making. My background in technical training and user support equips my technical profile with strong communication skills, an acute understanding of user needs, and proven teamwork capabilities. Seeking to grow my career in Data Analytics and deliver value at the intersection of data, business, and human experience.

🏢 EXPERIENCE

Data Analyst & ML Project Lead

Present – Present

OncoLens

- End-to-end Data Analysis and Machine Learning project focused on tumor classification using transcriptomic data (RNA-Seq).
- Designed and deployed a full data pipeline (ETL, EDA, predictive modeling, and interactive visualization) using Python, SQL, Power BI, Streamlit, Git, and GitHub, processing over **1,600 samples** and **20,000 genes**.
- Built an interactive clinical decision-support platform for oncological diagnostics.

Training Specialist

01/2024 – Present

Mainjobs

- Analyzed educational and training data to produce actionable progress reports, applying dynamic data-driven methodologies to evaluate student performance.
- Optimized internal workflows and administrative processes using Excel, Asana, and e-learning LMS platforms.
- Provided technical support to students, managed credentials/access controls, and facilitated user onboarding.

Training Specialist

01/2022 – 01/2023

Webhelp

Málaga

- Evaluated and improved training programs, aligning content delivery with key tracking metrics.
- Led over **200 training sessions** for new hires, continuously refining content delivery and instructional materials based on periodic performance evaluations.

Learning & Development Specialist

06/2021 – 10/2022

Egencia

Málaga

- Designed and spearheaded corporate training initiatives, achieving a **90% program completion rate**.
- Aligned learning objectives and content strategy with quantitative tracking metrics.

EDUCATION

Data Analyst Bootcamp

08/2026

[Don Bosco](#)

Data analysis, cleaning, and transformation using Python, SQL, and EDA techniques within collaborative team environments.

Software Development in C & Linux

01/2025

[Fundación Telefónica](#)

Project development using team-based / collaborative working methodologies

Master's Degree in Big Data & Business Intelligence

01/2024

[ENEB](#)

Advanced Power BI, SQL, Applied AI, and deep learning frameworks (Python, TensorFlow, PyTorch).

Bachelor's Degree in Social Education

01/2014

[Universidad Pontificia](#)

CERTIFICATIONS

PL-300: Power BI Data Analyst

Microsoft — 2026

Python Certification

CISCO — 2025

SKILLS

Technical Skills

Python SQL Pandas Scikit-learn Power BI DAX
Tableau ETL Machine Learning Data Visualization
Streamlit Docker C Git Advanced Excel

Soft Skills

Analytical Thinking Problem Solving Teamwork
Clear Communication Flexibility / Adaptability
